Notes

- Based on FACT/JACIE 3rd edition Standards using the label format specified in ISBT 128
- Label dimension should be 100mm x 100mm
- ISBT recommends expressing collection and expiry dates and times using the Greenwich Mean Time (GMT), in addition to local date and time, for products which cross international borders. This would be recorded below the local date and time in parenthesis
- Refer to the standards for terminology published in Transfusion, Vol 47, July 2007
- **the Health Canada registration # and statement “Human Cells for Transplant” are Health Canada requirements for homologous donations only. Go to: cto_draft_gd-cto_ebauche_id_e.pdf (guidance) and Canada Gazette.htm (regs) for more information.
